

## Extended Channel list in the Staff of Nossal HS Team

The channel structure behind the Staff of Nossal HS Team now looks exactly like the folder structure where files will be located for our content.

Do not favourite\*/follow\* any Channels that are not directly relevant to you. It is up to others to alert you directly if your attention is needed and you are not usually associated with the work completed in the channel area.

\***Favourite** means it will appear in your expanded list when you select the Staff of Nossal HS Team

\***Follow** means to receive alerts when the channel is addressed @Channel\_Name

There is no more “School Documents” folder and associated sub-documents. All files can be accessed just by selecting the channel and then files. See example below.
