

## 2022 Student Laptop Program

Nossal High School has chosen to continue working with IT supplier LWT, to provide a multipurpose notebook/tablet computer for our students.

As we are aware that some students may have different requirements from their notebook/tablet during their time at Nossal, it is expected that the standard configuration of the L13 i5 Gen 2 Yoga will be sufficient for the purposes of our students. It is anticipated that the device will be provided to students early in the first term of 2022.

We have selected a notebook/tablet that incorporate a stylus from the current available technologies that we believe most appropriately meets the needs of our student and teacher learning community. The Lenovo Yoga is portable and light-weight, and with normal use, is able to provide a battery life that covers the duration of a normal school day.

Students at Nossal are strongly encouraged to make use of Microsoft's OneNote for digital notetaking during class. The device will be delivered to students pre-loaded with the Microsoft Office Suite (including OneNote). Further software will be available for students to download through the school's internal online software repository as required. All devices will be installed with a standard operating environment based on Microsoft Windows 10 Education.

We have been able to bundle the device with a 4 year Premium Accidental Damage Protection insurance policy as well as an extended 4th year on site (at school) warranty. Full details of these policies are available below.

### **L13 i5 Gen 2 Yoga Silver \$1976.00**

Yoga - 11th Generation Intel® Core™ i5-1135G7 Processor (2.40 GHz, up to 4.20 GHz with Turbo Boost, 4 Cores, 8 Threads, 8 MB Cache)  
16 GB DDR4 3200MHz Onboard  
256 GB SSD, M.2 2280, PCIe NVMe, OPAL, TLC  
Windows 10 Pro 64 English  
13.3" FHD (1920x1080), IPS, Glare, 300nits,  
Touch, IR and HD Camera, Aluminium, Silver  
ThinkPad Pen Pro

### **Notebook Accidental Damage**

As part of the price of the notebook, the device will come with 4 years of warranty and insurance.

The warranty is covered under Lenovo L13 Onsite Service. This allows for quick repairs which will be carried out onsite at Nossal High School, generally within a 96 hour period. Warranty claims will ONLY cover issues that are deemed factory or manufacturing issues.

Lenovo Accidental Damage Insurance is bundled into the cost of the device. This will allow for any issues that may occur outside of the warranty, such as dropping the device and requiring replacement parts.

### **Please Note: All claims incur a \$100 excess**

As with any insurance policy, we advise that you peruse the Product Disclosure Statement to fully understand the insurance that is on your device:

[Click here for the Lenovo ADP Insurance PDS](#)

This document outlines all the information that will ensure that your device is covered over the duration of 4 years, ensuring quick replacement times should there be any unforeseen issues.

### **Notebook Battery Information**

Nossal High School would normally ensure that all parts in a notebook are covered with a 4 year warranty. However the cost to have a battery covered for the 4 years was approximately an additional \$180.

Therefore it was decided not to include the 4th year for the battery.

As a result, the battery while a long life "ThinkPad Battery 3 cell Li-Polymer (45Whr)" is only covered for a maximum of 3 years.

Return to the website and complete the online process.

**Note: Battery is only covered for 3 years**

Information on how to order and pay for student notebooks through the Compass portal will be forwarded to all families with their permanent Compass portal logins.

### **Important Note:**

**Whilst it is not compulsory to purchase through the school, it is highly recommended.**

- Nossal does not support MAC devices.
- Windows Education or Pro is required
- A stylus is highly recommended

### **Why it is best to purchase the school device of choice:-**

If you purchase outside the school program,

#### **Warranty**

- You will be responsible for any warranty issues.
- If purchased out of Australia, how is the warranty to be handled?
- Will the device have a 4-year warranty?
- How will repairs be carried out?
- How will you deal with a replacement unit to ensure minimal disruption to your child's learning if there are extended service issues?

**School purchased machines come with a 4-year onsite warranty and approximately 48-hour repair turnaround**

#### **Insurance**

- You will be responsible for the total management of any insurance claim.
- Will the device have a 4-year insurance cover?
- How will you deal with a replacement unit to ensure minimal disruption to your child's learning if there are extended claim issues?

School purchased machines come with four years Accidental Damage cover with a \$100 excess (approximately one week repair time)

### **Software**

- Legally we are not allowed to install school purchased software on a device purchased outside the school program.
- You will need to purchase any specialty software that would be provided on a school recommended device that your child requires
- You will be responsible for the installation and maintenance of this software

School purchased machines come with a standard operating environment, imaged and updates as required are part of the purchase.

### **IT Support**

- School IT staff will only be able to provide limited support in locating issues and advising your child
- you will be required to resolve the issues externally.

School purchased machines are fully supported by the Suppliers in house tech support and Nossal IT staff management with an approximate turnaround of 48hrs.

### **Loan Machines**

- If you bring your own device, Nossal does not provide a loan device if your personal device needs external repair

### **Wireless Access**

- An alternative device will not be domain joined or onboarded, a student will not be able to make use of some Single Sign-On Services
- Access to some school-based applications will be limited and additional configuration may be required
- no ability to receive certain group policy updates,
- This additional configuration could incur costs.

School purchased machines are fully domain joined or onboarded and will receive access to the whole school student network infrastructure.

### **Educational Experience**

- Any alternative notebook should have stylus functionality.

We strive for all students to have the same educational experience thus, all school recommended devices come with a stylus capability.
